

Dear logging people,
please, please, please, please don't log this forest! I think with my kindest
regards that what you are doing is completely crazy and you should stop as
soon as you get this letter. Corunna lake is a stunningly beautiful place and you can
find out just how beautiful it is by coming here without your goddamn logging machines.

~~XXXXXXXXXX~~

more than one-hundred species of animals live in that forest including 12 endangered ones so please, please, please

stop what your doing ~~immediately~~ because alot of people want you to,
immediately

~~XXXXXXXXXX~~

p.s. im eleven years old and I go
to Membulla School.

yours sincerely

Finn
