Environment Protection Licence

Licence - 12095

Information about this licence

Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and annual return to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

Environment Protection Licence

Licence - 12095

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

NEWCASTLE PORT CORPORATION
PO BOX 25
MILLERS POINT NSW 2000

subject to the conditions which follow.

Environment Protection Licence

Licence - 12095

1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their scheduled activity classification, fee-based activity classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

Scheduled Activity	Fee Based Activity	Scale
Shipping in bulk	Shipping in bulk	0 - 100000 T of annual capacity to load and unload

A1.2 The licence does not authorise the activity of shipping facilities (bulk) other than in respect of the following:

- (a) vegetable oils;
- (b) tallow; and
- (c) fatty acids.

A2 Premises or plant to which this licence applies

A2.1 The licence applies to the following premises:

Premises Details
BERTH 4 WHITE BAY
ROBERT STREET
BALMAIN
NSW 2041
PART LOT 1 DP 875201, PART LOT 4 DP 875201
THOSE PARTS OF LOT 1 AND 4 DP875201 AS SHOWN AS A RED HATCHED AREA LABELLED "AREA SUBJECT TO ENVIRONMENT PROTECTION LICENCE" ON THE SYDNEY PORTS CORPORATION DRAWING NUMBER SWGP256B TITLED "PREMISES SUBJECT TO ENVIRONMENT PROTECTION LICENCE BERTH NO. 4 WHITE BAY", DATED 24/06/05, AND ANY VESSEL WHILE IT IS BERTHED AT THAT RED HATCHED AREA.

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:

- a) the applications for any licences (including former pollution control approvals) which this licence replaces

Environment Protection Licence

Licence - 12095

under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and
b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

2 Discharges to Air and Water and Applications to Land

P1 Location of monitoring/discharge points and areas

- P1.1 The following utilisation areas referred to in the table below are identified in this licence for the purposes of the monitoring and/or the setting of limits for any application of solids or liquids to the utilisation area.

3 Limit Conditions

L1 Pollution of waters

- L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Waste

- L2.1 The licensee must not cause, permit or allow any waste generated outside the premises to be received at the premises for storage, treatment, processing, reprocessing or disposal or any waste generated at the premises to be disposed of at the premises, except as expressly permitted by the licence.

4 Operating Conditions

O1 Activities must be carried out in a competent manner

- O1.1 Licensed activities must be carried out in a competent manner.
This includes:
a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.

O2 Maintenance of plant and equipment

- O2.1 All plant and equipment installed at the premises or used in connection with the licensed activity:
a) must be maintained in a proper and efficient condition; and
b) must be operated in a proper and efficient manner.

Environment Protection Licence

Licence - 12095

O3 Dust

- O3.1 The licensee must maintain the premises in a condition which prevents or minimises the emission of dust from the premises.

O4 Processes and management

O4.1 Special Noise Control

Note: Conditions to be add after the completion of Pollution Reduction Program U1.1.

O4.2 Noise Control

O4.2.1 The licensee must minimise noise emissions from the premises, including minimising noise emissions from berthing and unberthing ships at the premises.

O4.2.2 The licensee must implement all reasonably practicable measures to minimise noise impacts on noise sensitive receivers, including but not limited to:

(a) ensuring that the agent, or the master for any vessel, the subject of one or more noise complaints received directly or indirectly by the licensee:-

(i) are notified as soon as practicable after receiving the complaint the nature of each complaint, and
(ii) are required to undertake practicable measures to prevent a recurrence of the conditions that led to the complaint being made;

(b) shielding noisy plant or equipment so as to minimise noise impacts on the occupants of noise sensitive receivers;

(c) carrying out loading and unloading activities as far away as is practicable from noise sensitive receivers;

(d) designing the layout of the premises and work processes and taking all such other practicable steps necessary to minimise vehicle movements that would activate audible reversing and movement alarms; and

(f) establishing a speed limit not greater than 20 kilometres per hour for the premises by installing and maintaining clearly visible speed limit signs at the vehicular entrance to the premises and at strategic locations throughout the premises.

O4.3 Smoke and Odour Control

O4.3.1 The licensee must ensure that every auxiliary power unit or generator on any ship, in or on the premises, is operated by such practicable means as may be necessary to prevent or minimise air pollution.

Nevertheless smoke may be emitted for up to 30 consecutive seconds immediately after starting an auxiliary power unit or generator on a ship berthed at the premises.

Note: This condition does not relieve the licensee of any other obligation under the POEO (Clean Air) Regulation 2010.

O4.3.2 The licensee must not cause or permit the emission of any offensive odour from the premises.

Note: Section 129 of the Protection of the Environment Operations Act 1997, provides that the licensee must

Environment Protection Licence

Licence - 12095

not cause or permit the emission of any offensive odour from the premises but provides a defence if the emission is identified in the relevant environment protection licence as a potentially offensive odour and the odour was emitted in accordance with the conditions of a licence directed at minimising odour.

O5 Waste management

- O5.1 The licensee must assess, classify and manage any waste generated at the premises in accordance with the *Environmental Guidelines: Classification and Management of Liquid and Non-Liquid Wastes 1999 (Waste Guidelines)* prior to transporting the waste off the premises.
- O5.2 The licensee must ensure, if waste is transported from the premises, that the waste is:
- (a) transported by a waste transporter authorised to transport such waste; and
 - (b) transported to a place that can lawfully accept that waste.

O6 Other operating conditions

O6.1 Ship Loading and Unloading

O6.1.1 The licensee must ensure that appropriate spill response and clean up equipment are available at all times to respond to any spill of substances that include but are not limited to vegetable oil, tallow, fatty acids and fuel.

O6.1.2 The licensee must ensure that each person who handles vegetable oil, tallow, fatty acids or fuel, at the premises has been adequately trained in spill response, including:

- (a) spill response procedures;
- (b) how to use sorbent material and other spill response equipment, and
- (c) who to notify when a spill has been discovered.

O6.2 Tanker Truck Loading and Unloading

The licensee must ensure that all tanker trucks used to transport vegetable oil, tallow or fatty acid to and from the premises are loaded and unloaded within the bunded area of the premises.

5 Monitoring and Recording Conditions

M1 Monitoring records

- M1.1 The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.
- M1.2 All records required to be kept by this licence must be:

Environment Protection Licence

Licence - 12095

- a) in a legible form, or in a form that can readily be reduced to a legible form;
- b) kept for at least 4 years after the monitoring or event to which they relate took place; and
- c) produced in a legible form to any authorised officer of the EPA who asks to see them.

M1.3 The following records must be kept in respect of any samples required to be collected for the purposes of this licence:

- a) the date(s) on which the sample was taken;
- b) the time(s) at which the sample was collected;
- c) the point at which the sample was taken; and
- d) the name of the person who collected the sample.

M2 Recording of pollution complaints

M2.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.

M2.2 The record must include details of the following:

- a) the date and time of the complaint;
- b) the method by which the complaint was made;
- c) any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
- d) the nature of the complaint;
- e) the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
- f) if no action was taken by the licensee, the reasons why no action was taken.

M2.3 The record of a complaint must be kept for at least 4 years after the complaint was made.

M2.4 The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

M3.1 The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.

M3.2 The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.

M3.3 The preceding two conditions do not apply until 3 months after: the date of the issue of this licence.

M4 Other monitoring and recording conditions

M4.1 Special Monitoring and Recording

Noise Monitoring

Environment Protection Licence

Licence - 12095

M4.1.1 The licensee must arrange for an accredited acoustic consultant to undertake noise monitoring:

- (a) the first time each ship berths at the premises after the commencement of this licence, for periods sufficient to determine the noise contribution from the premises when cargo is being loaded/ unloaded onto/ from the ship and transported to/ from the premises. The activities occurring during the monitoring period shall be indicated and justified as representing normal maximum operations; and
- (b) as directed by an authorised officer of the EPA.

Note: See Condition R4.1 for monitoring report requirements.

M4.1.2 The noise monitoring required to be undertaken by condition M4.1.1 of this licence must be undertaken:

- (a) at the most affected residence or other representative location acceptable to the EPA;
- (b) in accordance with the compliance monitoring guidance provided in the INP; and
- (c) by monitoring methods that are capable of determining the activities occurring on the site in real time and the noise contribution from those activities.

M4.1.3 Where the licensee can demonstrate, to the satisfaction of the EPA, that direct measurement of noise from the premises is impractical, the EPA may accept alternative means of determining compliance.

M4.2 The licensee must monitor and record the following for each vessel that berths at the premises:

- (a) the time and date of arrival and departure;
- (b) the name of the vessel as well as-
 - (i) details of the vessel's registration, and
 - (ii) the name of the vessel's master and name and contact details of the agent, and
 - (iii) the parties responsible for loading or unloading the vessel;
- (c) the name and quantity (in tonnes) of each substance loaded or unloaded;
- (d) the time and date of commencing and ceasing loading and unloading of each substance referred to in (c);
- (e) the nature, scope, cause, and date and time of occurrence of any spillages (whether causing or likely to cause material harm to the environment or not) of any substance referred to in (c) and details of the remedial measures undertaken to manage the spilled cargo and to prevent a recurrence of cargo spillage;
- (f) the time, date, duration, nature and scope of loading or unloading shutdowns, including any occasion when cargo unloading is required to cease because of a requirement of this licence; and
- (g) the remedial action taken to permit a restart of loading or unloading that ceased because of a requirement of this licence.

6 Reporting Conditions

R1 Annual return documents

R1.1 The licensee must complete and supply to the EPA an Annual Return in the approved form comprising:

- 1. a Statement of Compliance,
- 2. a Monitoring and Complaints Summary,

Environment Protection Licence

Licence - 12095

3. a Statement of Compliance - Licence Conditions,
4. a Statement of Compliance - Load based Fee,
5. a Statement of Compliance - Requirement to Prepare Pollution Incident Response Management Plan,
6. a Statement of Compliance - Requirement to Publish Pollution Monitoring Data; and
7. a Statement of Compliance - Environmental Management Systems and Practices.

At the end of each reporting period, the EPA will provide to the licensee notification that the Annual Return is due.

- R1.2 An Annual Return must be prepared in respect of each reporting period, except as provided below.
- R1.3 Where this licence is transferred from the licensee to a new licensee:
- a) the transferring licensee must prepare an Annual Return for the period commencing on the first day of the reporting period and ending on the date the application for the transfer of the licence to the new licensee is granted; and
 - b) the new licensee must prepare an Annual Return for the period commencing on the date the application for the transfer of the licence is granted and ending on the last day of the reporting period.
- R1.4 Where this licence is surrendered by the licensee or revoked by the EPA or Minister, the licensee must prepare an Annual Return in respect of the period commencing on the first day of the reporting period and ending on:
- a) in relation to the surrender of a licence - the date when notice in writing of approval of the surrender is given; or
 - b) in relation to the revocation of the licence - the date from which notice revoking the licence operates.
- R1.5 The Annual Return for the reporting period must be supplied to the EPA via eConnect *EPA* or by registered post not later than 60 days after the end of each reporting period or in the case of a transferring licence not later than 60 days after the date the transfer was granted (the 'due date').
- R1.6 The licensee must retain a copy of the Annual Return supplied to the EPA for a period of at least 4 years after the Annual Return was due to be supplied to the EPA.
- R1.7 Within the Annual Return, the Statements of Compliance must be certified and the Monitoring and Complaints Summary must be signed by:
- a) the licence holder; or
 - b) by a person approved in writing by the EPA to sign on behalf of the licence holder.

Note: The term "reporting period" is defined in the dictionary at the end of this licence. Do not complete the Annual Return until after the end of the reporting period.

Note: An application to transfer a licence must be made in the approved form for this purpose.

R2 Notification of environmental harm

- R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.
- R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which they became aware of the incident.

Environment Protection Licence

Licence - 12095

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R3 Written report

- R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
- a) where this licence applies to premises, an event has occurred at the premises; or
 - b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence,
- and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.
- R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.
- R3.3 The request may require a report which includes any or all of the following information:
- a) the cause, time and duration of the event;
 - b) the type, volume and concentration of every pollutant discharged as a result of the event;
 - c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
 - d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
 - e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
 - f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
 - g) any other relevant matters.
- R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

R4 Other reporting conditions

Noise monitoring reports

- R4.1 The acoustic consultant referred to in Condition M4.1 must prepare a report that includes:
- (a) details of the method and locations used, and the results obtained during noise monitoring referred to in Condition M4.1;
 - (b) a thorough analysis of the monitoring results in respect of the noise goals referred to in Condition U1.1 and the operating conditions imposed by this licence; and
 - (c) recommendations about feasible and reasonable noise impact mitigation measures that would be

Environment Protection Licence

Licence - 12095

required at the premises:

- (i) to reduce noise to levels that would not exceed the noise goals referred to in paragraph (b) above; and
- (ii) to ensure compliance with Condition O4.2.

R4.2 The licensee must ensure that reports required by Condition R4.1 are provided to the EPA as follows:

(a) monitoring referred to in Condition M4.1.1 (a) – not more than 21 days after that monitoring has been completed; and

(b) monitoring required by Condition M4.1.1 (b) – by 11.00 am on the day after that monitoring has been completed.

Monthly complaints report

R4.3 The licensee must submit to the EPA a monthly complaints statistics report on or before the twentieth day of each month that includes:

(a) a graphical representation of the number of complaints received over the preceding 11 months as well as the month the subject of the report, with graphs showing:

- (i) the total number of complaints received directly or indirectly by the licensee,
- (ii) a breakdown showing the number of complaints in each of the following categories, of the complaints referred to in paragraph (i) above:

- noise from shipboard auxiliary power units,
- noise from sources other than shipboard auxiliary power units,
- smoke
- water pollution, and
- other.

R4.4 The licensee must:

(a) publish annually on its web site a copy of the graphical representations required by Condition R4.3(a)(i) and (ii); and

(b) provide at each Environment Liaison Committee (Condition G2) meeting a copy of the current graphical representations required by required by Condition R4.3(a)(i) and (ii) to each committee member.

R4.5 The licensee must prepare a monthly report of the details required to be recorded by Condition M4.2.

R4.6 The licensee must ensure that the report required by Condition R4.5:

(a) includes all the details required to be recorded by Condition M4.2;

(b) incorporates a spreadsheet table that includes monthly subtotal and annual rolling total for the year during which the activities occurred in respect of the following:

- (i) number of ships that have berthed at the premises;
- (ii) the quantity (in tonnes) of each substance transferred to or from any ship that moored at the premises; and
- (iii) the number of spills that occurred at the premises, including any ship moored at the premises, and;

(c) is provided to the EPA within seven (7) days of a request from an authorised officer of the EPA.

Environment Protection Licence

Licence - 12095

- R4.7 The licensee is not required to submit a report for any reporting period during which no complaints were received.
- R4.8 If the licensee is not required to submit a monthly report as per Condition R4.7 the licensee must confirm the number of complaints received for that reporting period in the next monthly complaints report required by Condition R4.3.

7 General Conditions

G1 Copy of licence kept at the premises or plant

- G1.1 A copy of this licence must be kept at the premises to which the licence applies.
- G1.2 The licence must be produced to any authorised officer of the EPA who asks to see it.
- G1.3 The licence must be available for inspection by any employee or agent of the licensee working at the premises.

G2 Other general conditions

G2.1 Environment liaison committee

G2.1.1 The licensee must establish a community environment liaison committee, comprising of representatives of the local community and the licensee, that meets at least once in every 3 months commencing not later than 30 days after this licence commences.

Where the committee agrees unanimously that there is insufficient business to discuss, it may instead hold meetings at intervals of longer than 3 months but not longer than 12 months. If two or since any decision to extend the interval between meetings, the chairperson must convene a meeting to consider that business within 14 days of that notice.

G2.1.2 The purposes of the committee must include:

- (a) to provide a forum for committee members to discuss issues concerning the environmental impact of activities at the premises on the surrounding community; and
- (b) to seek to develop mutually satisfactory solutions to the issues mentioned in paragraph (a).

G2.1.3 The licensee must:

- (a) invite community nominations for membership of the environment liaison committee by advertising on at least 2 occasions in a newspaper distributed regularly in the surrounding community;
- (b) convene meetings at a time acceptable to the majority of community members of the committee;
- (c) provide an appropriate local meeting venue;
- (d) invite all committee members to submit agenda items for each meeting;
- (e) distribute the agenda for each meeting to all committee members not less than 7 days beforehand; and
- (f) prepare and distribute minutes of each meeting, to all members of the committee and the EPA, within 14 days of that meeting having been held.

G2.1.4 The licensee may incorporate the committee required by this condition into a broader community liaison committee provided that the requirements of clauses (G2.1.1) and (G2.1.2) are satisfied in all other respects.

Environment Protection Licence

Licence - 12095

Note: Members of any broader community liaison committee may also be members of the committee required by this condition.

G2.2 Community information web site

G2.2.1 The licensee must:

- (a) establish and maintain a community information web site within 3 months of the date of the issue of this licence; and
- (b) notify the community of the opening of the web site by notice in a local newspaper circulating regularly in the surrounding community and once every 12 months thereafter.

G2.2.2 The web site required by clause (1) to this condition must provide ready access to:

- (a) licensee contact information, including how to register environmental complaints;
- (b) details of the activities carried out at the premises;
- (c) a copy of the noise compliance monitoring reports required by this licence;
- (d) the graphical representations required by condition R4.2; and
- (e) details of current berthings and expected berthings, including details of the ship, berthing date and time of arrival and departure.

G2.2.3 The web site may be:

- (a) shared with other licensees and stevedores operating within the area covered by the Glebe Island and White Bay Master Plan published by Sydney Ports Corporation in November 2000; or
- (b) incorporated in the Sydney Ports Corporation web site.

Environment Protection Licence

Licence - 12095

Dictionary

General Dictionary

3DGM [in relation to a concentration limit]	Means the three day geometric mean, which is calculated by multiplying the results of the analysis of three samples collected on consecutive days and then taking the cubed root of that amount. Where one or more of the samples is zero or below the detection limit for the analysis, then 1 or the detection limit respectively should be used in place of those samples
Act	Means the Protection of the Environment Operations Act 1997
activity	Means a scheduled or non-scheduled activity within the meaning of the Protection of the Environment Operations Act 1997
actual load	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
AM	Together with a number, means an ambient air monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
AMG	Australian Map Grid
anniversary date	The anniversary date is the anniversary each year of the date of issue of the licence. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
annual return	Is defined in R1.1
Approved Methods Publication	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
assessable pollutants	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
BOD	Means biochemical oxygen demand
CEM	Together with a number, means a continuous emission monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
COD	Means chemical oxygen demand
composite sample	Unless otherwise specifically approved in writing by the EPA, a sample consisting of 24 individual samples collected at hourly intervals and each having an equivalent volume.
cond.	Means conductivity
environment	Has the same meaning as in the Protection of the Environment Operations Act 1997
environment protection legislation	Has the same meaning as in the Protection of the Environment Administration Act 1991
EPA	Means Environment Protection Authority of New South Wales.
fee-based activity classification	Means the numbered short descriptions in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2009.
general solid waste (non-putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

Environment Protection Licence

Licence - 12095

flow weighted composite sample	Means a sample whose composites are sized in proportion to the flow at each composites time of collection.
general solid waste (putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
grab sample	Means a single sample taken at a point at a single time
hazardous waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
licensee	Means the licence holder described at the front of this licence
load calculation protocol	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
local authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
material harm	Has the same meaning as in section 147 Protection of the Environment Operations Act 1997
MBAS	Means methylene blue active substances
Minister	Means the Minister administering the Protection of the Environment Operations Act 1997
