

# Drop in session for the rafts on the Macquarie river

---

**Time/Date: 1–3pm Tuesday 28 February 2023**

**Location: Window on the Wetlands Centre,  
2 Coonamble Rd, Warren**

---

Following recent flood events in NSW, debris rafts have formed along the Macquarie River, north of Warren.

The NSW Environment Protection Authority (EPA) is working with other government agencies and engaged independent environmental experts EMM Consulting to develop a report with their opinion on the impacts of the rafts on the river and the surrounding environment.

The NSW EPA, Local Land Services (LLS), Department of Planning and Environment (DPE) and EMM Consulting are holding a drop-in session to discuss the details of the report and answer any questions.

A copy of the report will be available along with more information at [epa.nsw.gov.au](http://epa.nsw.gov.au).
