What is your preferred method of contact? Email

Would you like to receive further information and updates on IFOA and forestry matters? No

Can the EPA make your submission public? Yes

Have you previously engaged with the EPA on forestry issues? No

What parts of the draft Coastal IFOA are most important to you? Why? The logging of old growth trees.

What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why? not answered
Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

These trees should be protected; they are a fantastic example of Australia’s natural beauty. They also notoriously produce a lot of waste when cut down (being left behind in the woods) and don’t provide the best yields.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

not answered

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

not answered

Q21. General comments
