**Q16. What parts of the draft Coastal IFOA are most important to you? Why?**

Protecting the old growth forests and threatened ecosystems as well as soil and water quality.

**Q17. What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**

None. Intensification of logging and clearing will result.
Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

Intensification of logging and clearing in our forests threatens ecosystem function. There is nothing sustainable about it.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

Permanent protection is required.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No. Intensification of forest destruction is not sustainable.

Q21. General comments

I resent participating in this process and the time and energy that so many brilliant people have spent working to protect our forests. There is nothing “sustainable” about the draft IFOA.
