To Whom it May Concern,

I wish to express my concerns about the management of the South East forests. I am very angry about the proposed logging of forests in the area proposed logging of forests in the South East and in particular the forests around Conuma Lake.

This area is a major tourist attraction, is home to a diversity of native animals, is the spiritual home of the local First Nations people, and that is not sustainable is short sighted and frankly a waste of taxpayer money.

I am urging this government to reconsider the decision to logging and revise plans for forestry and management that reflects the needs and wishes of the community.

Thank you for considering this.

Yours Sincerely,

[Signature]
