Q1. First name
   Lynne

Q2. Last name
   Robertson

Q3. Phone
   not answered

Q4. Mobile
   not answered

Q5. Email
   not answered

Q6. Postcode
   

Q7. Country
   Australia

Q8. Stakeholder type
   Individual

Q9. Stakeholder type - Other
   not answered

Q10. Stakeholder type - Staff
   not answered

Q11. Organisation name
   not answered

Q12. What is your preferred method of contact?
   Mobile

Q13. Would you like to receive further information and updates on IFOA and forestry matters?
   Yes

Q14. Can the EPA make your submission public?
   Yes

Q15. Have you previously engaged with the EPA on forestry issues?
   No

Q16. What parts of the draft Coastal IFOA are most important to you? Why?
   The logging of trees over 20 years old

Q17. What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?
   I don't think logging is sustainable in any form at this point in history
Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

You need to have long term vision and see the wealth in beautiful forests left unlogged. Tourism and wildlife protection are vital to this area.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

The more protection the better.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No because instead of using timber we could use hemp which I’d much more sustainable.

Q21. General comments

Please understand the impact of logging not only on a local but global level.
