Q1. First name
   Peter

Q2. Last name
   Morris

Q3. Phone
   not answered

Q4. Mobile
   [redacted]

Q5. Email
   [redacted]

Q6. Postcode
   [redacted]

Q7. Country
   not answered

Q8. Stakeholder type
   Individual

Q9. Stakeholder type - Other
   not answered

Q10. Stakeholder type - Staff
   not answered

Q11. Organisation name
   not answered

Q12. What is your preferred method of contact?
   Email

Q13. Would you like to receive further information and updates on IFOA and forestry matters?
   No

Q14. Can the EPA make your submission public?
   Yes

Q15. Have you previously engaged with the EPA on forestry issues?
   Yes

Q16. What parts of the draft Coastal IFOA are most important to you? Why?
   Those parts that are intended to protect conservation values, as they provide habitat.

Q17. What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?
   I think the process doesn't adequately define sustainability in terms of the very real need to avoid loss of biodiversity.
Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

Harvesting timber, because it reduces conservation value.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

They are most effective if they are comprehensive. More as of forest should be added to the reserve system.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No. There should be no logging of old growth forest.

Q21. General comments
