- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** Yes
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**
Big trees are a big part of history. They obviously take a very long time to get this large. I am also worried about the native koala population and other animals residing in the forest. They will be left with nowhere to go and many will perish.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**
Jobs is all I can think of because sustainable timber can be made from other products

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

Little or no thought has gone into to environment values for this location. As above there will be lots of negative side effects

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

These sections need protection. We cannot wipe out large trees and forests because we cannot replace them. A large ecosystem is living there

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

No! As above environmental values are not really being taken into consideration
