To whom it may concern,

Re: Corumba Forest

I would like to express my great concern about the logging of Corumba Forest.

This beautiful backdrop to Guloga mountain should be preserved not only for the very important benefit of tourism, but also for us locals to be cherished and enjoyed.

The ecological balance is at a critical turning point and I urge you to face this problem and start to preserve the last resources we have left for our future generations.

With regards,
Aouice Colind
