- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** Yes
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** not answered
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**
preservation of native forests to maintain heritage and the cultural ties to the First Nations people and those who came later. Aside to the environmental benefit, these forests must be prtected for future generations to enjoy. Turn it into a eco-tourism mecca instead of pillaged country like the 85% of the country already destroyed for financial benefit.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**
not read it yet

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

not read it yet

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

permanent protection must occur, protection that can not be waived at the whim of a serving government, permanent protection must happen

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

remains to be seen... by past events no, not without robust and unwaivering laws to protect the resource.

Q21. General comments

how old must have those trees been before they were diminished into carts, fence posts, houses and dinner tables.. what a bloody shame that greed and disrespect for nature steals away from heritage, things we would never see again in our own lifetime
