- Q1. **First name** [REDACTED]
- Q2. **Last name** [REDACTED]
- Q3. **Phone** not answered
- Q4. **Mobile** [REDACTED]
- Q5. **Email** [REDACTED]
- Q6. **Postcode** [REDACTED]
- Q7. **Country** not answered
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**
not answered
- Q10. **Stakeholder type - Staff**
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** Yes
- Q14. **Can the EPA make your submission public?** Yes, but anonymous
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**
Animal habitat, deforestation, and climate change
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**
none

Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

There is nothing sustainable about clear cut logging of old growth forest. This plan will dramatically affect all animal habitat not only the threatened Koala. Using timber to make electricity is short-sighted and will not ease coal requirements. These trees hold enormous amounts of carbon and logging them will dramatically affect the climate. In the end this proposal is only about money for businesses and nothing else.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?

Protections are being wiped out. When you take state forest and allow businesses in there is no protections. Why can't the forest be left to the animals? We are already destroying their home near the coast with these massive amounts of housing developments that do NOT take into account our wildlife. Soon, it will be too late.

Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?

NO, NO, NO. Because timber for electricity is not going to work and our forests, wildlife, and climate will be dead.

Q21. General comments

not answered
