

**Respondent No:** 309

**Login:** Anonymous

**Email:** n/a

**Responded At:** Jul 05, 2018 09:38:56 am

**Last Seen:** Jul 05, 2018 09:38:56 am

**IP Address:** n/a

- Q1. **First name** [REDACTED]
- Q2. **Last name** [REDACTED]
- Q3. **Phone** not answered
- Q4. **Mobile** not answered
- Q5. **Email** [REDACTED]
- Q6. **Postcode** [REDACTED]
- Q7. **Country** Australia
- Q8. **Stakeholder type** Individual
- Q9. **Stakeholder type - Other**  
not answered
- Q10. **Stakeholder type - Staff**  
not answered
- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** Email
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** No
- Q14. **Can the EPA make your submission public?** Yes, but anonymous
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
Saving oxygen giving trees. Without them, especially huge older ones all humans will die.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
None. Open clearing is unacceptable

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

Because we need natural forests... We are all nature we are not robots.

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

The absolute need to protect what forests we have left. Its basic logic. We and especially our children are screwed if we don't manage or forests

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

No. As if it is. That's obvious.

---

**Q21. General comments**

Seriously, stop cutting down the damn trees. Farm hemp and heal the land at the same time as getting product that is better than timber and more versatile.
