- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** Yes
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** Yes
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
The lost of habitat for our Koalas, Gliders, Reptiles, Birds, Microbats, Small & Large mammals.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
Personally I don't think that logging has a sustainable future. The destruction it leaves behind in catastrophic. I've seen this before & I am appalled.

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

Once again I don't approve of logging due to the destruction left behind & the habitat loss for all our wildlife. With no consideration & no regard as to what is killed in the process.

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

I feel very strongly about protecting what little forests & habitat that is still remnant. These are a sanctuary to protect the habitat of our wildlife.

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

No..I don't think that timber is a sustainable product or can be managed appropriately. Governments don't understand nor will they ever be compassionate for our wildlife.
