- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
All parts of the draft are important, as they are proposing to downgrade the existing operating rules and guidelines which have taken a long time to finally be put in to practice.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
None what so ever!! The reason why is simple,because IT IS NOT SUSTAINABLE.. We must move to a 100% plantation industry for the production of hardwood on not be BULLIED by corporations to agree to wood supply agreements.

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

All parts of the draft have a negative outcome. For reasons why see above

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

Permanent protection is extremely important!!!

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

NO, because of the fact that it is not working yet to date. I see first hand the destruction done in local State Forests on a regular basis with what is called selective logging but is more like CLEAR FELLING.
