Q1. <b>First name</b>	Robert
Q2. <b>Last name</b>	England
Q3. <b>Phone</b>	██████████
Q4. <b>Mobile</b>	not answered
Q5. <b>Email</b>	████████████████████
Q6. <b>Postcode</b>	████
Q7. <b>Country</b>	Australia
Q8. <b>Stakeholder type</b>	Individual
Q9. <b>Stakeholder type - Other</b>	not answered
Q10. <b>Stakeholder type - Staff</b>	not answered
Q11. <b>Organisation name</b>	not answered
Q12. <b>What is your preferred method of contact?</b>	Mobile
Q13. <b>Would you like to receive further information and updates on IFOA and forestry matters?</b>	Yes
Q14. <b>Can the EPA make your submission public?</b>	Yes
Q15. <b>Have you previously engaged with the EPA on forestry issues?</b>	No

**Q16. What parts of the draft Coastal IFOA are most important to you? Why?**

Some forty years ago there was a large population of koalas on my small seven acre plot at Korora, Not a day would pass without me seeing one of these beautiful animals and on occasions I have picked up a baby that had fallen from a tree and waited until the mother climbed down very warily to collect her baby that I placed at the foot of the tree once I saw the mother approaching. I have not seen a koala for nearly fifteen years on my place, in spite of me busting my guts to plant some one hundred trees (two varieties) of eucalyptus that the local koala population was eating. I put this loss down to cats and dogs allowed to run free, too much removal of native trees that are replaced by non-indigenous trees and the non-caring attitude of people in the valley towards wildlife in general. HOWEVER THE GREATEST THREAT TO WILDLIFE IS THE UNCONTROLLED DESTRUCTION OF THEIR NATIVE HABITATS BY UNSCRUPULOUS POLITICIANS AND UNCARING TIMBER MILL OPERATORS WHOSE SOLE AIM IS TO ACCUMULATE WEALTH. This attitude I find appalling and the government should have the courage to stop the destruction of wildlife habitats although I guess the brown paper bag filled with money still exists in political circles and is gleefully received from those wishing to destroy of pristine bushland

**Q17. What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**

I have no idea, I just want a stop put to the destruction of our environment motivated by greed

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

not answered

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

not answered

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

not answered

**Q21. General comments**

not answered

**Q22. Attach your supporting documents (Document 1)** not answered

**Q23. Attach your supporting documents (Document 2)** not answered

**Q24. Attach your supporting documents (Document 3)** not answered
