- Q11. **Organisation name** not answered
- Q12. **What is your preferred method of contact?** not answered
- Q13. **Would you like to receive further information and updates on IFOA and forestry matters?** Yes
- Q14. **Can the EPA make your submission public?** Yes
- Q15. **Have you previously engaged with the EPA on forestry issues?** No
- Q16. **What parts of the draft Coastal IFOA are most important to you? Why?**  
The parts that are important are any parts that propose logging the remnants of our native forests. I do not trust forestry industry to do the right thing.
- Q17. **What parts of the draft Coastal IFOA do you think have a positive outcome on the management of environmental values or the production of sustainable timber? Why?**  
None

**Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?**

Too much forest will be destroyed and so will the native animals that depend on it

---

**Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?**

I do not trust the government or logging industry to do the right thing and am against further logging of our native forests. I think "environmental protection" is a very low priority for the logging industry.

---

**Q20. In your opinion, would the draft Coastal IFOA be effective in managing environmental values and a sustainable timber industry? Why?**

No i dont believe so, because there is too much timber taken and our native animals and habitats are given scant consideration. Therefore i am in opposition to the draft. Many thanks

---

**Q21. General comments**

Our Native forests are being decimated, against the will of the Australian people and for the benefit of a few. Stop this carnage of our forests and native animals, it is virtually a criminal act, and no one trusts forestry industry or government to provide adequate protection. I object. many thanks
