---

**Q21. General comments**

I am shocked to read these plans which will further deteriorate the situation of already severely threatened species such as koalas, old growth, rainforest and waterways. I ask you, I beg you: to stop ALL logging within the next few years, starting with an immediate stop of koala habitats, rainforest and riverbanks. The planet and we humans need alternatives. Please invest in those alternatives. Quality of life for all humans is much more important than profits made from precious finite natural resources by a limited group of people. It will not be easy, but I am sure you can do it. I wish you insight, wisdom and all you need to make the urgently needed changes. Yours Sincerely Saskia Kouwenberg
