You can also drop off items with these logos:

Transporting your materials safely

Transporting your materials safely to a Chemical CleanOut event is important. Here are some top tips for safe storage and transportation:

- Tape the terminals of batteries. If handling leaking or corroded batteries, wear gloves and place batteries in a sealed plastic bag.
- Ensure containers are clearly labelled and well-sealed. If you do not know the contents, label the container 'UNKNOWN CHEMICAL'.
- Wherever possible keep all chemicals in their original containers.
- Never mix chemicals as this may produce dangerous reactions.
- Liquid can leak during transportation. Wrap old or damaged containers in newspaper, place in a sturdy plastic bag and then in a plastic container or tray.
- Keep household chemicals away from passengers e.g. in the boot.
- Before attending, place all materials in the rear of your vehicle. On arrival, remain in your vehicle and our contractor will collect your items.

Other recycling programs

Recycle loose **batteries** at supermarkets and hardware stores. Visit bcycle.com.au

Recycle products with **embedded batteries** at Community Recycling Centres participating in the embedded batteries trial. For more information visit cleanout.com.au

Return **unwanted medicine** to your local pharmacy for safe disposal.

Recycle your **mobile phone** with Mobile Muster. Visit mobilemuster.com.au

Go to recyclingnearyou.com.au to find out where you can drop off **TVs, computers or printers** for recycling.

Businesses can find out where to recycle **business waste** at businessrecycling.com.au
