Q18. What parts of the draft Coastal IFOA do you think have a negative outcome on the management of environmental values or the production of sustainable timber? Why?

These trees should be protected; they are a fantastic example of Australia's natural beauty. They also notoriously produce a lot of waste when cut down (being left behind in the woods) and don't provide the best yields.

Q19. What are your views on the effectiveness of the combination of permanent environmental protections at the regional, landscape and operational scales (multi-scale protection)?
