I am writing in response to consultation on the NSW Regional Forest Agreements (RFAs) and to state my opposition to their renewal. The RFAs have failed to meet their aims and instead during their 20 years:

Please conserve our bush. Other countries have been greatly denuded of their native forests, eg the U K and Nepal, and I cherish our bush and all that grows and lives in it, it regenerates me, a wild place to walk and take in, and there are the wild flowers, birds, lizards. I love it. I would like the native bush to be available for others too wherever we happen to be living.

I am sure you forestry people and hopefully you politicians who are responsible for looking after our forests know all the reasons why forests are so important to our human habitat.

Please care for our forests/ bushland.
